## Profile

I'm a full-stack mobile app developer with 2+ years of experience specializing in Flutter and Firebase, with a focus on responsive UIs and seamless integration with RESTful APIs or Firebase. I'm experienced in DevOps (CI/CD with GitHub Actions, automated testing, Bugsnag) and project management. My background in customer service helps me understand and meet client needs. I'm passionate about building innovative, high-quality mobile apps.

## Professional Experience

### Flutter Developer

*The TUTIONIST*

03/2024 – present  
Islamabad, Pakistan

- Developed and maintained cross-platform mobile applications using Flutter and Dart
- Built responsive and modern user interfaces in collaboration with UI/UX designers
- Integrated RESTful APIs and third-party services for seamless functionality
- Managed application state efficiently using GetX
- Ensured code quality through clean, maintainable, and scalable development practices
- Collaborated with QA and product teams to deliver high-performance, user-friendly apps
- Participated in agile sprints, code reviews, and continuous improvement efforts

### Flutter Developer

*Hifah Technology*

06/2024

Worked on various projects like "Mego" (similar to OLX) and "Flatty" (for buying and selling property).

- Developed both mobile and web applications in Flutter.
- Integrated Firebase services, including real-time database and authentication.

## Skills
